How we use cookies

We use cookies to improve your user experience by remembering you across logins, during a check-out process, and track some computer-specific settings.

How to delete and block our cookies

To delete or block our cookies, use your browser's settings. See AboutCookies.org for browser-specific details.

Detailed information about cookies

Cookie	Expires	Description
JSESSIONID	With session	A unique, random value representing your session identifier. This allows us to keep track of your movement from page to page so that we do not have to ask you for the same information you have already given us. This information is only stored temporarily, and it is deleted when you close your browser.
username	14 days	Stores your username so that it can be remembered on the Login page.
state	On your next visit	Stores arbitrary information about the state of the session.
effectsEnabledFlag	Never	Stores arbitrary information about the state of the session.

Cookies set by third parties

Cookie	Expires	Description
__utma	2 years	Set by Google Analytics, these cookies are used to collect information about how visitors use our website. We use the information to compile reports and to help us improve our service to you. The cookies collect
__utmb	30 minutes	
__utmc	With session	
__utmz	6 months	

		information in an anonymous form, including the number of visitors to the site, where visitors have come to the site from and the pages they visited.
Arbitrary	Arbitrary	Set by Adobe Flash Player. The Adobe Flash Player, used to provide services such as iPlayer or web-based games, is also capable of storing information on your device. However, these cookies cannot be controlled through your web browser. Some web browser manufacturers are developing solutions to allow you to control these through your browser, but at the present time, if you wish to restrict or block Flash Cookies, then you must do this on the Adobe website.
Arbitrary	Arbitrary	Set by Infosniper. When you visit our pages that link to the Infosniper geolocation services, they may set cookies. See their website for up-to-date cookie information.
Arbitrary	Arbitrary	Set by other user interface components we use may save their state to arbitrarily named cookies. This state is internal, cannot be used to identify you, and is only meaningful to the component that created it.
